OF WESTERN AUSTRALIA [Inc.]
2024 SQUEAKER SALE**

TRUCK FUND - SQUEAKER AUCTION

VENUE: Whatley RPC 110 Hardy Road, Bayswater

TIME: 10.30 am

DATE: Sunday 4 February 2024

Auctioneer: Neil Bailey

As you are no doubt aware the PRF truck has done approximately 370,000 kms., and our maintenance costs are increasing season by season. It is past time that we started planning to replace the truck. Unfortunately, we have kept members fees too low for too long and now need to manage our way out of this predicament.

When we talk to other Federations in capital cities across Australia, we find that they are far better resourced and have state of the art trucks with modern, well appointed, bird compartments because their members pay considerably more fees than our members. If members are prepared to participate in fund raising exercises, we will continue to strive to keep costs reasonable.

The top twenty placegetters in season 2023 Flyer of The Year competition, and other very credible local and interstate flyers, have kindly agreed to donate a pair of squeakers from their stock loft to raise funds for this very worthwhile cause. There will be some outstanding squeakers presented for sale by auction. Don't miss this rare opportunity to purchase some of the best sprint, middle and specialist long distance blood in Western Australia.

While the squeakers presented for auction are late bred, this represents a unique opportunity to purchase first class pigeons. I can assure you that some of these squeakers would not be available, under normal circumstances.

The PRF Board take this opportunity to thank the doners for their support and unwavering generosity. There will be something of interest here for everyone.

Same as **LOT 17** Nest Pair

LOT No: 19**BREEDER: Fred SCERRI of Wanneroo RPC**

As you are aware Fred Scerri is probably, over time, one of the most consistent distance flyers both in the old IRPF and the PRF. His bird's performances speak for themselves without any further explanation. Fred finished 8th in 2023 FOY results and he missed one race, a check of the Federation Consistency for the last several years will show that Fred has not been out of the top four or five places at the end of the season and is regularly at or near the top from the 800 – 1000 kms. Races. Actually Fred's birds are hard to beat from any distance.

BIRD DESCRIPTION

Smokey BB PRF 23 15577

Leo has an excellent appreciation of pigeon racing and what it takes to make a good pigeon perform.

BIRD DESCRIPTION

These two youngsters Blue Ch Pied PRF.23.14499 (No.2 Pair) and Blue Check PRF.23.14500 (No.1 Pair) are bred in the purple.

I only have two pair of full-time breeders and these youngsters are from them. These two pair without a shadow of doubt are the best, most consistent, pairs I have ever owned in just on 70 years in the sport and were only discovered by accident. A recent count shows these two pair have accrued 66 places including some very good wins. E.g. Riverton 100 (No.1 pair). A fed card this year two hens from the No.2 pair. Another, 3rd National from Nerren Nerren with a daughter of No.2 pair in which two sisters landed together 20 minutes in front of the field. The No.1 pair produce 11 flights quite regularly (as well as being very consistent breeders). The No.1 and 2 offspring have always been very good pool birds and several No.1 pair hens have accrued more than \$1,000 in pools each over years.

My Soontjen (sourced from the late Allan Brown of Riviera Lofts, San Remo, Victoria) are of long standing (20 years) and have always given of their best. The two sires here are cousins, although very quickly go back to the source birds of Jos Soontjen.

The hens of the No.1 and 2 pairs are sisters. Their Sire PRF.11.3452 was a Van Dyck Koopman cock gifted to me as a youngster by Bradley Phillips and is a brother to his 2011 PRF Fed young bird derby winner. (I subsequently lost 3452 in a sprint race).

Their Dam PRF.08.14448 (a Jos Thone bird) was gifted to me by David Van Aalst in October 2010. She is down from Bonk x Belle and Olympiad all round. (I only ever bred two off 14448) and these are the hens of the No.1 and 2 pair). **Pedigrees available**

LOT No: 24

PRF 23 14500 out of Leo's No 1 pair

LEO IS CONFIDENT THESE TWO YOUNGSTERS WILL DO WELL IN ANY LOFT.

LOT No: 25

BREEDER: Mick Brown of Whatley RPC

Mick Brown finished 7th in the 2023 FOY competition and is very competitive in the strong Whatley club. Mick is an astute judge of pigeon flesh. You only need read the below pedigrees and the performance

of his stock pigeons across many years. If you subscribe to the theory, like breed like, then there's more than fair chance these squeakers should perform, on the track or in the stock loft.

ADDITIONAL SQUEAKERS - bird descriptions not yet available.

In addition to the above listed pigeons, we have birds donated [but not yet ready] by Tony McPherson. These squeakers will be auctioned "sight unseen"

Tony is a master breeder of quality racing pigeons, as many WA lofts would attest to.

We have pigeons donated by Jai Hoskins of "Diamond Pigeon Stud" of SA.

Steve Gazola of "Meadow One Loft" has kindly donated a pigeon.

Rod Simmons of "Winners 1 Pigeons & Products" has kindly donated a pigeon along with Stephen Kearsley who has also donated a pigeon.

Mark Stanbury of United Districts RPC

In addition, we have a selection of old birds, kindly donated by Mark Stanbury, who due to poor health can no longer manage his pigeons. While we don't have access to stock records, for those that have not met Mark Stanbury, he is a very astute and resourceful person who has personally travelled far and wide to purchase some of the best pigeons from top lofts in Australia. These pigeons would have to be worth a try at stock.

We cannot list the pigeons from eastern states lofts until they are received, however they have all been sourced from very credible lofts.
